

## Manager (Product / Project) – Mass Spec Development Team

### San Francisco Area

A leading analytical instrument company is seeking a talented and motivated Scientist to manage existing and new instrumentation in the triple quadrupole mass spectrometry market.

The position will involve leading a multifunctional team of scientists and engineers supporting current offerings and the next generation of instrumentation on the road to commercialization. He/she will act as the “voice of the customer” in the organization, ensuring market trends and activities are relayed to the design and development team. They will also support the sales & marketing team, advising on pricing and instrumentation demonstrations/exhibitions.

Candidates should have a Chemistry or Science degree and around 5 years (or more) of product management, project management, or mass spec lab management experience. A thorough understanding of triple quadrupole mass spec instrumentation is required. Compensation is flexible depending on experience; up to \$150k for excellent candidates! Relocation assistance is available in addition to a 10% annual bonus.
