

Research Associate – Quantitative Mass Spectrometry (LC/MS/MS)

Maryland / Washington D.C.

Exciting opportunity to join a fast growing, well-funded, start-up laboratory specializing in oncology related diagnostics!

The successful candidate will be responsible for supporting the development of sensitive, high through-put assays for **quantitative analysis of protein biomarkers** within biological matrices via the use of **capillary LC-MS/MS** technology.

Primary Responsibilities

- Assist with developing sensitive and quantitative high through-put assays for the analysis of proteins in biological matrices.
- Process samples for quantitative peptide analysis via LC-MS/MS instrumentation, including the preparation of samples from biological matrices.
- Perform optimization, calibration and validation of pre-clinical samples for assay development.
- General maintenance and troubleshooting of LC-MS/MS instrumentation.
- Record keeping in compliance with CLIA and GLP regulations.

Candidate Qualifications

- BS or MS in Chemistry, Biochemistry, Biology, etc. with 1-3 years' relevant experience in industry (GLP/CLIA) and a background in mass spectrometry.
- Experience in the use of LC-MS/MS (triple quadrupole) instrumentation; preferably Waters and/or Thermo Fisher.
- Familiarity with peptide/protein assays a PLUS!
- MUST be able to work efficiently in a dynamic, fast paced environment where change is frequent, and employees share many responsibilities
- SEEKING a positive and motivated chemist or biologist interested in career progression within the field of protein diagnostics

Salary

- Full time / permanent position with a base salary of \$55-65K +10% bonus + stock options!
- Relocation assistance available
- Health/dental/vision Insurance + 401K + Paid vacation
