

Lab Operations Manager – Forensic Toxicology / Clinical Chemistry

Vermont

VRS is working with a rapidly expanding drug testing lab in Vermont to fill a high level management role in their Burlington facility. This position is responsible for the direct management of 6 Lab Supervisors and their teams. The ideal candidate will have a strong background in managing/mentoring laboratory staff in a production facility, and excel in grooming Scientists to become leaders. This individual must have experience managing complex projects and be able to multi-task at a high level. It is crucial that they have worked in the lab at the bench at some point in their career. Additionally, our client serves the drug treatment community and is seeking individuals with compassion and a desire to serve this community.

This position comes with fantastic employee benefits, relocation assistance, and a competitive annual salary.
