

# Analytical Chemist – LC/MS (Clinical Toxicology)

## Ohio

Our client is seeking an **Analytical Chemist** for their Clinical lab in the Greater Cincinnati OH area. The lab is looking for a strong chemist with extensive hands on mass spec experience (including method development) in the analysis of small molecules. This position will be filled immediately.

### Primary Responsibilities

- Operation of LC/MS/MS instrumentation for the analysis of biological samples; determine the presence or quantity of drugs of abuse, therapeutic drugs, and toxic substances
- Run standards and controls, verifying equipment accuracy and function
- Maintain and troubleshoot chromatographic and mass spec instrumentation as needed
- Process chromatographic data for patient diagnosis and treatment
- Develop and validate new LC/MS/MS methods for use in the clinical lab (Research and Development)

### Primary Qualifications

- Minimum of a B.S. degree in Chemistry or related field (Ph.D. preferred)
- Hands on LC/MS/MS experience quantifying small molecules; includes method development (Agilent / MassHunter users desired)
- Looking for a team player with a strong attention to detail and a flexible / organized working style
- Must be open-minded and able to “wear multiple hats” in the lab as needed; this is a startup facility

### Salary / Benefits

- Competitive Salary
- Health Insurance
- Paid vacation
