

Lab Manager – Clinical Toxicology (LC-MS)

New York City

We have an URGENT need for a **Lab Manager** at a successful, large volume drug testing lab in **New York City**. Our client needs an experienced **Technologist and Manager** with hands-on experience validating LC-MS/MS methods for drug / toxicology testing.

Responsibilities:

- Primary focus is overseeing the operation of an LC/MS lab for urine drug confirmation of controlled and illicit substances
- Direct management of a large group of lab techs and chemists
- Hiring/training additional employees as needed
- Participate in producing high quality results for physicians and hospitals while maximizing throughput & sample turnaround
- Help develop new drug panels and optimize current methods for improved sensitivity and selectivity

Requirements:

- Minimum of Bachelor's degree in chemistry or related field
- Previous Supervisory experience in a Lab is required; regulatory / compliance knowledge a MUST
- 3+ years in a clinical lab – experience in urine drug analysis for pain management is highly desired
- Ability to optimize/validate clinical methods and troubleshoot LC/MS instrumentation
- NYS Clinical Lab Technologist License a PLUS!
- **Must have a desire to manage others and be highly organized and reliable. The ideal candidate will be able to independently manage the lab and help improve its efficiency.**

Compensation:

- Competitive salary and EXCELLENT benefits
 - annual bonus, health insurance, 401k match, 4 weeks paid vacation!
- Relocation assistance available for excellent candidates
