

Analytical Chemist – LC/MS (Clinical Toxicology)

Connecticut

Our client is seeking an **Analytical Chemist** for their Clinical lab in coastal Connecticut (CT). The lab is looking for an intermediate level chemist with hands on mass spec experience in the analysis of small molecules, ideally drugs. **This position will be filled immediately.**

Primary Responsibilities

- Utilize immunoassay screening system to verify need for mass spec sample analysis
- Operation of LC/MS/MS instrumentation for the analysis of biological samples; determine the presence or quantity of drugs of abuse, therapeutic drugs, and toxic substances
- Run standards and controls, verifying equipment accuracy and function
- Maintain and troubleshoot ELISA, chromatographic, and mass spec instrumentation as needed
- Process chromatographic data for patient diagnosis and treatment
- Serve as Lab Supervisor, managing other Lab Assistants

Primary Qualifications

- Minimum of a B.S. degree in Chemistry or related field
- Hands on LC/MS/MS experience (AB Sciex users desired)
- 2+ years in a clinical lab processing samples and reviewing data is ideal
- Looking for a team player with a strong attention to detail and a flexible / organized working style
- Must be open-minded and able to “wear multiple hats” in the lab as needed

Salary / Benefits

- Competitive annual salary
- Health / Dental Insurance
- 401k
- Paid vacation
- Relocation assistance for excellent candidates!
