

# Proteomics Scientist – LC/MS

## Greater Boston

We are seeking an experienced chemist to join a leading analytical instrument vendor.

VRS is looking for a **Proteomics Scientist – LC/MS** based out of **Boston** to become part of a dynamic team presenting new HPLC-MS solutions for **Proteomics** analysis to customers. The successful candidate will combine both in depth mass spec knowledge and strong communication skills to deliver the highest levels of service.

### Primary Responsibilities:

- Execute instrument demonstrations of HPLC-MS products to new/existing customers for Proteomics applications.
- Part of a professional & focused team dedicated to putting customer needs first.
- Support pre & post instrument sales as a technical expert.
- Prepare & analyze customer samples; provide report of results.
- Help develop new application notes and technical papers.
- Present posters and deliver presentations both externally to customers and internally for sales and marketing.
- Up to 30% travel as required to provide customer support in the use of installed equipment and specific applications tests along with attending relevant conferences.

### Candidate Qualifications:

- PhD preferred or experienced BS/MS Degree in Chemistry, Biotech, Biochemistry, or Biology.
- Hands on experience and knowledge of Proteomics analysis using ESI MS systems.
- Practical approach to trouble shooting and method development using HPLC, with experience using Triple Quad, ToF and Q-ToF MS systems.
- Strong organizational and interpersonal skills; versatile personality.
- Excellent verbal and written communication skills a must.
- Cooperative and self-motivated working style with the ability to meet required target times.

### Compensation:

- Permanent full time position with a total package of \$90-110k + bonus
- Full dental & medical insurance.
- Relocation package available.
