

LC/MS Chemist – Biopharmaceutical / Antibody Analysis

Greater Boston

VRS is looking for a Scientist to become part of a major instrument vendor presenting new HPLC-MS solutions for Biopharma analysis to customers. The successful candidate will combine both in depth mass spec knowledge and strong communication skills.

Primary Responsibilities:

- Execute instrument demonstrations of HPLC-MS products to new/existing customers for Biopharmaceutical applications.
- Support pre & post instrument sales as a technical expert.
- Prepare & analyze customer samples; provide report of results.
- Develop new application notes and technical papers.
- Present posters and deliver presentations both externally to customers and internally for sales and marketing.
- Up to 30% travel as required to provide customer support in the use of installed equipment and specific applications tests along with attending relevant conferences.

Candidate Qualifications:

- PhD preferred or experienced BS/MS Degree in Chemistry, Biotech, Biochemistry, or Biology.
- Hands on experience and knowledge of Biopharma analysis using ESI MS systems – specifically in the field of antibody or antibody drug conjugates (ADC).
- Practical approach to trouble shooting and method development using HPLC, with experience using Triple Quad, ToF and Q-ToF MS systems.
- Strong organizational and interpersonal skills; versatile personality.
- Excellent verbal and written communication skills a must.
- Cooperative and self-motivated working style with the ability to meet required target times.

Compensation:

- Permanent full time position with a total package of \$90-110k + annual bonus.
- Full dental & medical insurance.
- Relocation package available.
