

Scientist – Protein Mass Spectrometry

Maryland / Washington D.C.

We are seeking a positive and motivated chemist or biologist interested in career progression within the field of Biomarker Discovery. The successful candidate will be responsible for Research and Development (R&D) related to the **discovery of protein biomarkers** in biological matrices using **high resolution LC-MS** technology.

Primary Responsibilities

- Assay development for untargeted proteins and peptides found within biological samples.
- LC/MS method development & improvement, in conjunction with maintenance and troubleshooting.
- Data analysis using bioinformatics software and statistical modeling.
- Record keeping in compliance with CLIA and GLP regulations.

Candidate Qualifications

- Postdoc. or PhD in Chemistry, Biochemistry, Biology, etc. with a strong background in mass spectrometry (no industry experience needed).
- Advanced experience in the use and troubleshooting of LC-MS instrumentation; preferably Thermo, DIA.
- Familiarity with peptide/protein assays development and optimization required.
- Ability to manage data analysis using advanced bioinformatics software packages.

Salary

- Full time / permanent position with a base salary of \$90k+ with bonus!
- Relocation assistance available
- Health/dental/vision Insurance + 401K + Paid vacation

APPLY NOW!

If this role is of interest to you, and your background is suitable, please email your resume in WORD format to eberner@VRS-US.com
