

Senior Analytical Chemist - LC-MS/MS

Kansas City, MO

Our client is seeking a **Senior Analytical Chemist** for their CRO testing lab in Greater **Kansas City**. Candidates should have experience developing LC-MS/MS methods for the analysis of small molecule residues and metabolites at low concentrations. The ideal candidate will have worked with agro / agricultural samples. This position will be filled immediately!

Primary Responsibilities

- Research and Development - Developing quantitative methods to detect low concentration pesticides and herbicides in agricultural samples (mostly raw crop commodities)
- High Throughput Method Development, Sample Analysis, and Troubleshooting on HPLC-MS/MS & UPLC-MS/MS instrumentation
- Function as technical expert on MS/MS instrumentation – provide training and continuously improve processes / methods
- Manage multiple simultaneous projects and provide technical leadership to Analysts who will be utilizing methods you have developed
- Assist in processing and preparation of data packages for clients

Primary Qualifications

- Minimum of a MS degree in a physical science (PhD preferred)
- Hands on LC/MS experience (food, environmental, or agricultural chemistry background a PLUS)
- The more experience the better! (Please be ready to commit for a minimum of 5 years)
- Looking for a team player who will happily wear many hats in the lab and is motivated to provide high quality results

Salary / Benefits

- COMPETITIVE + annual bonus
- Paid vacation
- Health Insurance (Dental / Vision) + Life Insurance + Long term disability
- 401k + match!
