

## Director – Biologics Separations / Characterization / Filing

### Home-based

We have an immediate need for a full time, permanent Director / Associate Director, focused around the continued characterization and late stage development of a peptide biotherapeutic drug. Our client is a small molecule CMO that is moving into the biopharmaceutical space, and needs a high-level Scientist to spearhead this crucial project. The successful candidate will have experience in the complex separation & purification of peptides / proteins from biological matrices (downstream processing) using HPLC, SEC, IEX, etc. They must also have advanced experience with mass spectrometry (LC/MS) and proteomics in the characterization and sequencing of biopharmaceuticals, including working knowledge of various informatics platforms for proteomics and peptide mapping. Candidates will be involved in drafting reports for FDA filing and should have experience with IND and/or BLA submissions.

Our client can be HIGHLY competitive with regards to salary. **This position can be home-based throughout the United States**, and requires approximately 25% travel to coordinate with current and future contracted support groups.

Please contact us at once to discuss this once in a lifetime opportunity to help transform an already successful contract organization into a major player in biopharmaceuticals!

### APPLY NOW!

If this role is of interest to you, and your background is suitable, please email your resume in WORD format to [eberner@VRS-US.com](mailto:eberner@VRS-US.com)
