

MS Applications Chemist – Biotherapeutics

Greater Boston

Calling all Applications/Demo Chemists or those looking to enter this career path! VRS is looking for a Scientist to become part of a quickly expanding instrument vendor presenting novel technologies based on Mass Spectrometry solutions for Biopharma and small molecule analysis. The successful candidate will combine in depth mass spec, chromatography and/or capillary electrophoresis knowledge with presentation / training skills.

Primary Responsibilities:

- Execute instrument demonstrations of Mass Spectrometry related products to new/existing customers for Biopharmaceutical and small molecule applications.
- Support pre & post instrument sales as a technical expert.
- Prepare & analyze customer samples; provide report of results.
- Develop new application notes and technical papers.
- Present posters and deliver presentations both externally to customers and internally for sales and marketing.
- Up to 50% travel (mostly local) to provide customer support in the use of installed equipment and specific applications.

Candidate Qualifications:

- Minimum BS/MS Degree in Chemistry, Biotech, Biochemistry, or Biology
- Hands on experience and knowledge of Biopharma analysis using ESI MS systems, specifically in the field of antibody or antibody drug conjugates (ADC).
- Practical approach to troubleshooting and method development using HPLC, with experience using Orbitrap and/or Q-ToF systems.
- Strong organizational and interpersonal skills a MUST.
- Cooperative and self-motivated working style.

Compensation:

- Permanent, full-time position with a competitive remuneration package.
- Health Insurance.
- Relocation assistance available for excellent candidates.

APPLY NOW!
