

# **Biopharma Separations (mAb) – Field Applications Chemist**

## **Boston, MA**

VRS is looking for an adventurous Scientist to become part of a quickly expanding instrument company presenting novel technologies based on Mass Spectrometry to Biopharma / Pharma customers. The successful candidate will combine mass spec, chromatography, and/or capillary electrophoresis knowledge with the desire to work hand in hand with customers in Boston / Cambridge.

### **Primary Responsibilities:**

- Execute instrument demonstrations of Mass Spectrometry related products to new/existing customers for Biopharmaceutical and small molecule applications.
- Support pre & post sales efforts as a technical expert for multiple products.
- Deliver presentations both externally to customers and internally for sales and marketing.
- Feed-back successes and challenges to management / R&D to constantly improve hardware, software, customer experience.
- Travel mainly in Boston / Cambridge with limited overnight travel (10-20%).

### **Candidate Qualifications:**

- PhD preferred or experienced BS/MS Degree in Chemistry, Biotech, Biochemistry, or Biology.
- Hands on experience and knowledge of Biopharma separation and analysis – specifically in the field of monoclonal antibodies.
- Practical approach to trouble shooting and method development using HPLC or Capillary Electrophoresis.
- Strong organizational and interpersonal skills; versatile personality.
- Cooperative and self-motivated working style with the ability to meet required target times.

### **Compensation:**

- Permanent full-time position with a competitive remuneration package.
- Full dental & medical insurance.

## **APPLY NOW!**
