

Product Manager – Novel Biopharma Instrumentation

Boston Area

An innovative and expanding scientific instrument manufacturer is seeking a talented and motivated Product Manager to manage existing and new instrumentation in the Biopharmaceutical Analysis market.

Your responsibilities:

- Lead a multifunctional team of scientists and engineers supporting current offerings and the next generation of instrumentation on the road to commercialization
- Act as the “voice of the customer” in the organization, ensuring market trends and activities are relayed to the design and development team
- Support the sales & marketing team, advising on pricing and instrumentation demonstrations/exhibitions

Your background:

- Scientific degree (MS or PhD) and Product Management or Marketing experience
- Experience in Biopharmaceutical analysis / characterization
- Thorough understanding of the scientific product life cycle including pre- and post- market activities
- Ability to multi-task with the “eyes of a Hawk” when it comes to detail

Your reward:

- A HIGHLY competitive \$ package including healthcare and other benefits
- A fantastic working environment in one of the most exciting cities in the world for scientific research
- Potential for excellent career development and working with new and exciting technology
