

Senior Electrical Engineer – Mass Spectrometry

California

Are you an enthusiastic, analytically minded, and highly motivated **Electrical Engineer** - ideally with a background in **analytical instrumentation and mass spec**? If so read on

We have a fantastic opportunity to join an innovative start-up working to develop an entirely new product for the clinical market!

What you'll do

- Work in collaboration with scientists, engineers, & contractors to develop and commercialize a novel CE-MS system – communication is a vital aspect of this position
- Acquisition and/or development of all the electronics required for the project
- Extensive hands on work with board design from the ground up; includes FPGA

What you need

- Minimum bachelor's in electrical engineering
- Experience designing instrument or medical device electronics from the ground up
- Background in mass spectrometry is desired (TOF-MS is a plus!)
- Motivated self-starter able to work in a fast-paced environment and as part of a small, collaborative team

If you'd like to learn more...
